

REMARKS

Reconsideration is respectfully requested.

The Office Action dated April 1, 2004 indicates that Claims 1 and 2 are rejected under 35 U.S.C. §112, first and second paragraphs. By this amendment, Claims 1 and 2 have been amended to overcome the outstanding rejections.

It is nevertheless considered that the amendment in Claim 1, wherein the control unit is used "for controlling the turn on/off operation of the correction circuit unit" is adequately disclosed and enabled by the specification at page 8, lines 12-21.

No art rejection having been issued in this Office Action, the claims as amended are now considered ready for allowance.

For the above reasons, it is considered that the claims, as amended, find support in the application specification as filed, and that the combination of elements recited in the pending claims, as amended, distinguish over the references of record. Accordingly, reconsideration and withdrawal of the outstanding rejections are respectfully requested and an indication of allowable subject matter is earnestly solicited.

Respectfully submitted,

June 1, 2004
